<i>List of figures and tables</i>	vii
Introduction	1
1 Origins of Crowdsourcing in Science	7
1.1 <i>Democratization of Science</i>	8
1.2 <i>Scientific Cooperation</i>	17
1.3 <i>Technicization and Platformization of Science</i>	23
2 The Characteristics of Crowdsourcing in Science	35
2.1 <i>Definitions and Features of Crowdsourcing in Science</i>	38
2.2 <i>Crowdsourcing in Science on the Background of Related Concepts</i>	47
2.3 <i>Advantage of Crowdsourcing in Science</i>	53
3 Effective Management of Crowdsourcing in Science	61
3.1 <i>Crowdsourcing in Science: Step by Step</i>	62
3.2 <i>Challenges of Managing Crowdsourcing in Science</i>	68
3.3 <i>Platform for Crowdsourcing in Science: Amazon Mechanical Turk</i>	73
4 The Road to Successful Crowdsourcing in Science	80
4.1 <i>Essential Competencies for Crowdsourcing in Science</i>	81
4.2 <i>Researchers' Attitude and Perception</i>	86
4.3 <i>Managing People and Human Resources Processes</i>	95

5	Challenge in the Development of Crowdsourcing in Science	105
5.1	<i>New Direction for Research on Crowdsourcing in Science</i>	<i>106</i>
5.2	<i>The Future of Crowdsourcing in Science</i>	<i>119</i>
5.3	<i>Crowdsourcing in Science Versus Fast-Changing Technology Development</i>	<i>121</i>
	 <i>Index</i>	 <i>139</i>
